

Please tell me you people have better things to do with your time then to go down this road where people are willing to pay for their radio information and music listening. If people are willing to pay for this type of system, then don't you think they deserve what they signed up for? Why must you stick your nose into something that seems to be working just fine for those who are willing to pay for their satisfaction! Did I say PAY enough! Thanks for proving again what a joke Washington is.
